

Rinse Aid

Features:

- Environmentally Responsible Choice**
- High or Low Temperature Machines**
- Consistent Dilutions with Spot-Free Results**

Description

This concentrated all-temperature rinse aid is formulated from effective, readily biodegradable components. This product is injected into the final rinse water through dispensing equipment, and is recommended for use under a variety of conditions for spot free drying.

Directions

This product is designed for dispensing through automatic dispensing equipment. For best results, follow the equipment manufacturer's instructions for injecting into your dish machine.

Use requirements will vary depending on type of machine and water conditions. See your warewash specialist for specific use requirements.

For home-style equipment:

- 1 Fill detergent reservoir with liquid product.
- 2 For adjustable dispensers, use the minimum amount necessary to achieve spot-free rinsing.

For commercial equipment:

- 1 Inject 3 - 7 mL (1/8 - 1/4 oz.) of product per rinse cycle. Use the minimum amount necessary to achieve spot-free rinsing.

Applications

Rinse aid for:

- > Automatic dispensing equipment
- > Commercial kitchens
- > School and hospital kitchens
