

Protector

Silicone Surface Renovator
Renovador de Superficies Hecho de Silico

AUTOMOTIVE

DESCRIPTION

This white emulsion contains a blend of silicones and wetting agents to penetrate, renew, and protect a wide variety of surfaces including vinyl, leather, acrylics, and plastics. It helps repel dirt and grime while providing protection against ultraviolet rays and atmospheric ozone. This pleasantly scented product is an excellent choice for automotive maintenance and many other applications.

APPLICATIONS

Ideal for long lasting gloss to:

- Vinyl
- Rubber
- Leather
- Other automotive surfaces

FEATURES

- * High Gloss
- * Cleans and Protects
- * Non-Flammable

DIRECTIONS

Clean surface and rinse thoroughly. Allow to dry, then apply product by spraying or wiping over the surface. Allow sufficient time to penetrate, then buff off excess using a soft clean cloth. Repeat application for best protection and as required to keep surfaces clean, glossy and protected.

NOTE: *Treated surfaces are very slippery. Do not use on vehicle pedals, steering wheels or on the parts of tires that contact the road. Use with care on seats, floor boards and other surfaces where friction may be critical.*

KEEP FROM FREEZING
