Pressure Washer Cleaner

AUTOMOTIVE

DESCRIPTION

A one-step cleaner is for all tractors and painted trailers, that removes road film, heavy dirt deposits, and other grime. Works with both hot and cold pressure washer systems.

APPLICATIONS

Use to remove road grime, film, and heavy dirt deposits on:

- All tractors
- Painted trailers

FEATURES

- Highly Dilutable
- Effective Cleaning
- Versatile

DIRECTIONS

USAGE CAUTION: This product is designed to be diluted per instructions. Damage or streaking may occur if product is used at dilutions which are too concentrated.

Hot Pressure Systems: Use up to 1 oz. of product per gallon of hot water for light to medium cleaning. Use up to 2 oz. of product per gallon of hot water for heavier loads.

Cold Water Systems: Use 2-4 oz. of product per gallon of cold water, depending upon soil loads.

Automatic Drive-Thru Systems: Inject 2-4 oz. of product per gallon of water with detergent arch equipment.

Two-Step Systems: Follow manufacturer or sales representative instructions for application of acidic step. For alkaline step, use 2-4 oz. of product per gallon of water with detergent arch equipment.

Application: Allow 3-10 minutes contact time on the surface to be cleaned. Apply solution from bottom and work up to prevent streaks. Rinse thoroughly with high pressure water, rinsing from the top to the bottom. DO NOT allow cleaning solution to dry on the surface. Be extremely careful with the hot water.

SPECIFICATIONS

Color..... Dark Brown
