

Dishmachine Detergent Chlorinated

Detergente Clorado para Lavaplatos

GENERAL CLEANING

DESCRIPTION

This product is a highly concentrated blend of low-foam alkaline detergents, water softeners, soil suspending agents, corrosion inhibitors, sequesterants, and rinse additives that effectively removes protein, grease, starch, and other food byproducts. Emulsifies, disperses, and suspends all types of organic soils and rinses freely and completely without residue.

APPLICATIONS

Use in:
• Commercial machine dishwashers

FEATURES

- Low foaming
- Highly concentrated
- Emulsifies grease and oil
- Free rinsing

DIRECTIONS

MACHINE DISHWASHERS: Follow manufacturer's directions provided with the machine. Pre-scrape or pre-rinse heavily encrusted soils. Use approximately 0.2-0.4 oz. of product per gallon capacity of dishwasher. For best result, use high temperature water (165°-195° F).

C.I.P. CLEANING: Add 1-3 oz. of product per gallon of cold wash tank water. Raise the temperature of the solution to between 165°-195° F. Circulate the solution through the system for the appropriate program time, then drain the system. Flush the system with potable water, then sanitize the system with an appropriate sanitizer.

SOAK CLEANING: Mix 1-3 oz. of this product per gallon of cold water. Raise the temperature of the solution to 165° F. Immerse parts to be cleaned into the solution and allow 20 minutes of contact time. Flush the cleaned parts thoroughly with a potable water rinse, then sanitize with an appropriate sanitizer.

MIXING NOTE: ADD THIS PRODUCT TO COLD WATER ONLY! Splattering may occur if this product is added to warm or hot water.

ATTENTION: DO NOT USE THIS PRODUCT ON SOFT METALS SUCH AS ALUMINUM, BRASS, TIN, COPPER, OR ZINC! *This product reacts with soft metals and produces explosive hydrogen gas. When empty, this container may still be hazardous. Because containers, even after they have been emptied, still retain product residues (vapor, liquid or solid), all labeled hazard precautions must be observed. This product is an industrial strength concentrate. Do not use for hand or manual cleaning or dishwashing.*

DO NOT MIX this product with acids, ammonia, or quaternary ammonium compounds. Hazardous chlorine gas may be produced.

SPECIFICATIONS

Color.....Clear
Fragrance.....Characteristic
pH Range..... 13.5 - 14.0

Dilution 0.2 - 3 oz. / gal.
Density 10.17

DW1602-414/1 GALLON
