

Bar Wash

Low Suds

Glassware Anti-Spotting Agent

FOOD SERVICE

DESCRIPTION

Bar Wash is a powerful concentrated liquid specifically designed for restaurant and bar use, where fast and effective cleaning of glassware is a must. Bar Wash contains no acids or alkali, and is compatible with quaternary sanitizers, as well as other sanitizers and disinfectants that are approved for this use. As in any warewash operation, be sure to follow instructions governing local public health codes.
