

EPA-Approved to Kill Emerging Pathogens

Our entire team at Midlab is working closely with the U.S. EPA to continue adding to our list of products that fight emerging pathogens. We're thrilled to announce that Maxim **Facility+** is now approved by the EPA for use against emerging viral pathogens.

Product Description:

Facility+ has demonstrated effectiveness against viruses similar to **SARS-CoV-2 (formerly 2019-nCoV)** on hard, non-porous surfaces. Therefore, this product can be used against **SARS-CoV-2** when used in accordance with the directions for use against Norovirus on hard, non-porous surfaces. Refer to the CDC website at <https://wwwnc.cdc.gov/travel/notices/alert/novel-coronavirus-china> for additional information.

Facility+ is a one-step germicidal cleaner and deodorant designed for general cleaning, disinfecting, and deodorizing hard, non-porous surfaces.

Facility+ Offers BIG Benefits:

Designed to kill viruses like COVID-19 and eliminate the spread of germs, this powerful product is your solution to keeping Everything Clean and safe in your facility.

- Hydrogen peroxide based
- One-step cleaner, disinfectant, deodorant
- No noxious odor or fumes
- Effective against viruses similar to SARS-CoV-2
- Gentle on most hard, non-porous surfaces
- Manufactured in a LEED™ Gold-certified facility
