

Restorer

Spray Buff Concentrate

FLOOR CARE

DESCRIPTION

A highly concentrated floor restorer and maintainer for low and ultra high speed maintenance programs. It can be diluted for spray buff or mop-on procedures.

APPLICATIONS

- Spray buff concentrate for:
- All finished floors
 - High or low speed floor machines

FEATURES

- Mop on, or auto scrubber
- Highly durable
- Enhances floor gloss

DIRECTIONS

Clean floor by dust mopping followed by damp mopping floor prior to use.

Mop-on Application: Dilute product 5-10 oz. per gallon. Mop solution on floor similar to applying floor finish. Allow product to completely dry then buff or burnish floor.

Spray Buff Procedures: Dilute product 13 oz. per gallon and fill a 1 quart sprayer. Spray small amount of product on to floor and buff using a 175 to 1500 rpm machine.

Recommended Pads:

- 175-1500 rpm - Red Pad
- 500-3000 rpm - Beige Pad
