

Basic Kote

Low Maintenance Floor Finish

FLOOR CARE

DESCRIPTION

This product is the perfect floor finish for today's demanding customers. High gloss and great durability result from this unique combination of polymers. This product forms a clear film designed to withstand high traffic. This product fits non-buff and spray buff programs. This product's low odor also makes it easy to use in and around occupied areas. Increase your floor's appearance level and time between strip-outs with this product.

APPLICATIONS

Use on low maintenance areas where economical finish is preferred:

- Schools and offices
- Airports and hospitals

FEATURES

- Outstanding Gloss
- Excellent Scratch Resistance
- Quick Dry, Easy Application

DIRECTIONS

For Stripping and Finishing Applications: Apply 3-5 coats of finish to a freshly stripped, clean and dry floor. Allow adequate dry times between each coat.

For Scrub and Recoat Applications: Apply 1-3 coats of finish after deep scrubbing and rinsing the floor. Allow adequate dry time between coats.

For Periodic Maintenance and Buffing: Depending upon the machine type and speed and the amount of surface deterioration, pad choices will vary from white to natural fiber.
